# 1H12 Result - Slightly Below Expectations

### Top line slightly below expectations

The 1H12 result is slightly below expectations at the top line, but still inline at the bottom line. Revenues reached Rp 893 bn in 1H12 (+2.1% YoY, +10.3% QoQ), reaching 43.9% of our full year forecast. The increase in revenues was supported by higher filter sales (+1.4% YoY, +11.8% QoQ) which contributed 77% of revenues, and higher domestic market sales (+22.1% YoY, +10.3% QoQ), despite lower radiator sales (-12.9% YoY, +8.1% QoQ) which contributed only 19% of revenues and lower export market sales (-4.9% YoY, +10.3% QoQ). In our view, SMSM has taken some strategic moves in response to the global economic weakness by focusing more on the domestic market and the Asian market, which both recorded a larger share of revenues. At the bottom line, SMSM's net income grew by 13.4% YoY and by 33.1% QoQ to Rp 112 bn, representing 46.8% of our full year forecast - i.e. inline.

## **Improving margins**

Margins wise, SMSM's gross margin has improved to 26.1% in 1H12 from 25.0% in 1H11 due to declining in raw material prices and the succeed of cost reduction program. Although there is a slight increase in the opex to sales ratio, the operating margin still increased to 17.6% in 1H12. The net margin also saw an improvement. It increased to 12.6% in 1H12 from 11.3% in 1H11. We believe the company's good inventory management has helped it cope with the fluctuations in raw material prices.

### **Gearing maintained**

On July 9, SMSM made quarterly interest payments of Rp 4.22 bn on its existing SMSM02B and SMSM02C bonds totaling Rp 160 bn. This year, the bonds maintained their idAA- rating from Pefindo Credit Rating, supported by the company's revenues growth and very strong cash flow protection. We believe the company's net gearing will remain at its 1Q12 level of 32% in 1H12, allowing SMSM to undertake expansion through debt financing if required.

## Maintain BUY with TP of Rp2,513

We maintain our BUY call on the stock, confident that the company can meet our FY12 revenues target of Rp 2 trillion despite the weak conditions in its export markets, supported by efforts to focus on the domestic market and diversify its export markets. We adjust our new risk free rate to 6.5% with a risk premium of 7.4%. Our Target Price of Rp2,513 implies PER FY12-13 of 15.0-13.3x. At the current share price, the stock trades at PER FY12 of 12.0x.
