Sepanjang semester pertama tahun 2026, perekonomian global masih dibayangi oleh ketidakpastian geopolitik, dinamika perdagangan internasional, serta volatilitas rantai pasok. Di tengah kondisi tersebut, Perseroan berhasil membukukan pertumbuhan penjualan dan laba. Hasil tersebut mencerminkan ketahanan model bisnis Perseroan, disiplin dalam eksekusi strategi, serta kemampuan untuk terus beradaptasi terhadap dinamika lingkungan usaha.

Throughout the first half of 2026, the global economy continued to be overshadowed by geopolitical uncertainty, evolving international trade dynamics, and supply chain volatility. Against this backdrop, the Company delivered growth in both sales and earnings. These results reflect the resilience of the Company's business model, disciplined execution, and its ability to adapt to a dynamic operating environment.

Fundamental Perseroan tetap solid, tercermin dari pertumbuhan total aset sebesar 13% dan total ekuitas sebesar 10%, didukung struktur permodalan yang sehat dengan rasio liabilitas terhadap total aset sebesar 21% serta likuiditas yang kuat dengan *current ratio* sebesar 439%. Kondisi tersebut memberikan fleksibilitas keuangan yang memadai bagi Perseroan untuk terus menjalankan strategi jangka panjang secara konsisten.

The Company's business fundamentals remained solid, as reflected in 13% growth in total assets and 10% growth in total equity, supported by a prudent capital structure with a liabilities-to-total-assets ratio of 21% and strong liquidity, as evidenced by a current ratio of 439%. Together, these strengths provide the Company with the financial flexibility to continue executing its long-term strategy consistently.

Ke depan, Perseroan akan terus mencermati perkembangan ekonomi global dan dinamika geopolitik yang berpotensi mempengaruhi kondisi pasar. Didukung fundamental usaha yang kuat, posisi keuangan yang sehat, serta pengalaman dalam menghadapi berbagai siklus industri, Perseroan akan tetap berfokus pada peningkatan efisiensi operasional, penguatan daya saing, pengembangan produk bernilai tambah, dan mempertahankan tingkat profitabilitas yang sehat. Dengan mempertimbangkan kondisi tersebut, Perseroan meyakini prospek usaha pada tahun buku 2026 tetap mendukung pencapaian pertumbuhan penjualan dan laba bersih pada kisaran *single-digit growth*, dengan tingkat profitabilitas yang diperkirakan tetap sejalan dengan capaian tahun buku 2025.

Looking ahead, the Company will continue to closely monitor global economic developments and geopolitical dynamics that may affect market conditions. Supported by strong business fundamentals, a healthy financial position, and extensive experience in navigating industry cycles, the Company will remain focused on enhancing operational efficiency, strengthening its competitive position, expanding its higher value-added product portfolio, and maintaining healthy profitability margins. Taking these factors into consideration, the Company believes that its business outlook for the 2026 financial year continues to support the achievement of single-digit growth in both net sales and net profit, while expecting profitability margins to remain broadly in line with the levels recorded in 2025.
